

Preliminary list of Italian speakers

Mauro Taiuti (Genova- Overview of Nuclear Physics Activity in Italy)
Giacomo Cuttone (LNS- Overview of the Laboratory LNS)
Umberto Dosselli (LNF - Overview of the Laboratory LNF)
Giovanni Fiorentini (LNL – Overview of the Laboratory LNL)
Lucia Votano (LNGS- Overview of the Laboratory LNG)
Dino Bazzacco (Padova- AGATA at LNL)
Angela Bonaccorso (Pisa- Theory of Direct Reactions)
Fiorella Burgio (Catania – Nuclear EOS theory)
Nicola Colonna (Bari- Results from n_TOF)
Catalina Curceanu (LNF- Kaonic atoms studies at LNF)
Alessandra Guglielmetti (Milano- LUNA experiment at LNGS)
Alessandro Feliciello (Torino- Results on Hypernuclei)
Silvia Leoni (Milano- Gamma spectroscopy with transfer reactions)
Silvia Lenzi (Padova, Nuclear Structure theory)
Piero Mandò (Firenze- The LABEC laboratory activity)
Rosario Nania (Bologna- The latest results of ALICE)
Gianfranco Prete (LNL- Status of the SPES project)
Jenny Pierrousaku (Napoli- Light nuclei studied with low energy reactions)
Marco Ripani (Genova- Developments for applications in Nuclear Energy)
Alberto Rotondi (Pavia- Hadron Therapy with CNAO)
Claudio Spitaleri (LNS- Nuclear astrophysics at LNS)
